hromada громада

From Ukrainian communities to American donors

See the site:

Support Ukrainian communities in their recovery

Hromada connects US donors directly with Ukrainian municipalities rebuilding critical civilian infrastructure — hospitals, schools, water systems — with renewable energy.

Community Agency

Our ground-up model supplements top-down channels like United24 by going straight to municipalities.

Direct connection, no platform fees — unlike intermediaries like GlobalGiving.

Energy Security

Human security: communities that heat, power, and sustain themselves independently.

Hard security: hospitals and schools that run during blackouts and grid attacks.

Total Transparency

NGO partners verify every project on the ground — feasibility, cost, and community impact.

All procurement through Prozorro, Ukraine's mandatory public e-procurement platform — every transaction auditable.

How It Works

Communities bring needs
Municipalities submit requests through partner NGOs

Partners verify projects
NGOs assess feasibility, cost, and community impact

We publish their request
Verified projects go live for US donors

You fund their plan
Donation goes directly to the municipality

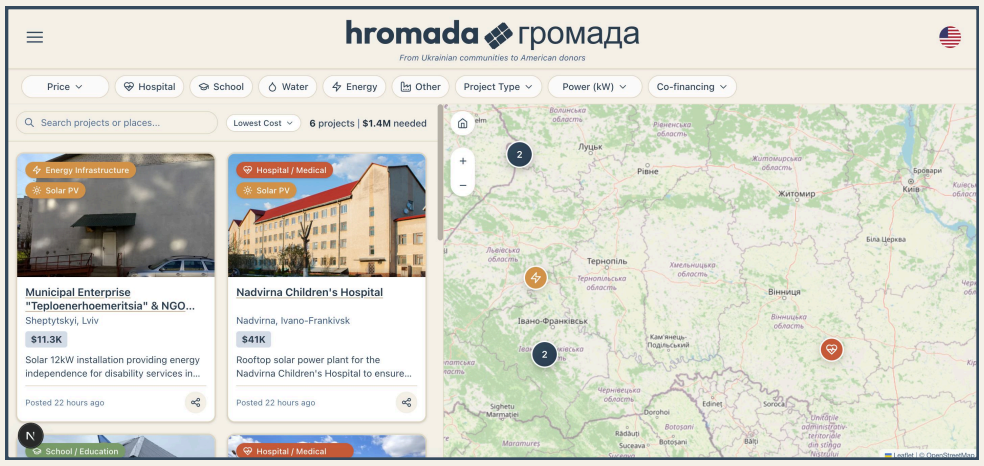
You see the impact
Dashboard with timeline, updates, and photos

Maximizing Your Dollar

$0 Platform fees
Every cent funds the project.
We don't take a cut.

Direct to Communities
We wire your fund straight to the municipal bank account

Tax-deductible
501(c)(3) through fiscal sponsor POCACITO



Our Partners

Ecoaction

Ecoclub Rivne

Greenpeace Ukraine

POCACITO Network Fiscal Sponsor
EIN 99-0392258

POCACITO's Candid Platinum Transparency Seal
