hromada громада

From Ukrainian communities to American donors.

See the site:

Support Ukrainian communities in their recovery

Hromada connects US donors directly with Ukrainian municipalities rebuilding critical civilian infrastructure — hospitals, schools, water systems — with decentralized renewable energy.

Community Agency

Our **grassroots model** supplements top-down channels like United24 by going straight to municipalities.

Communities request, manage, and own their projects. You're responding to their plan.

Energy Security

Human security: communities that heat, power, and **sustain themselves independently**.

Hard security: philanthropic capital that **directly counters Russia's strategy of attrition.**

Total Transparency

NGO **partners verify every project** on the ground: cost, construction, and community impact.

prozorro , Ukraine's mandatory public e-procurement platform, makes **every transaction auditable**.

How It Works

Communities bring needs
Municipalities submit requests through partner NGOs.

Partners verify projects
NGOs assess feasibility, cost, and community impact.

We publish their request
Verified projects go live for US donors.

Select and fund a project
Donation goes directly to the municipality.

See the impact
Dashboard with timeline, updates, and photos.

Maximize Your Dollar

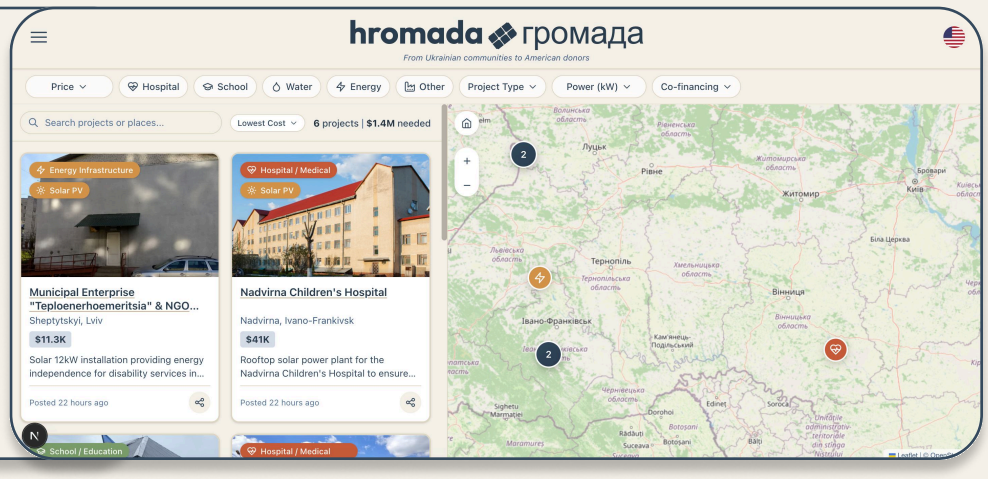
$0 Platform fees
Every cent funds the project.
We don't take a cut.

Direct to Communities
We wire your fund straight to the municipal bank account.

Tax-deductible
501(c)(3) through fiscal sponsor POCACITO.

Easy-to-Use Interface

- Explore projects on our interactive Airbnb-style map.
- Browse by category, find a community, and schedule a call to learn more.
- Track your project to completion using your donor dashboard.



Our Partners:

ekodiya ecoaction.org.ua — Ecoaction

Ecoclub — Ecoclub Rivne

GREENPEACE — Greenpeace Ukraine

pocacito — POCACITO Network Fiscal Sponsor EIN 99-0392258

Platinum Transparency 2026 Candid. — POCACITO's 2026 Candid Platinum Transparency Seal
